

*excello* is a specialized dental managed care company with unique skills and systems to provide a fully comprehensive, accessible and cost effective dental managed care service to the medical scheme industry and its members.

## **Mission Statement:**

To provide an Efficient platform from which Compliant service providers can render the appropriate medical treatment to Informed members of a medical scheme in a Cost Effective manner.

*excello* utilizes our research data gathered over the last 6 years to compile the relevant treatment protocols which is integrated into our systems. These systems will facilitate the achievement of the objectives in our mission statement namely:

## **Efficient Platform**

*excello* provides an efficient platform whereby:

- Service providers can successfully claim for the correct services rendered
- Members can have easy access to the appropriate treatment
- Medical schemes only pay for the correct treatment code

*excello* utilize web-based systems to facilitate hassle free and timely claims for service providers whilst also educating both the service providers and member online regarding the benefits of the member's Medical scheme option.

This facility is unique in the market and ensures service providers and member satisfaction.
